Feb Fest Foto-Op in Confederation Park

Construction has begun on Confederation Winter Park! The north side of the park is a flurry of activity with the building of the snow maze and snow slide. Professional snow builder and award winner Peter Vogelaar from British Columbia is in town to build these two structures over the next week. Snow is being stomped into place and 300 pound ice blocks have been brought into the park. Both structures will be completed by Wednesday February 2nd just in time for the opening of Feb Fest on the 3rd. Snow sculpture competition will take place again this year beginning at noon on Thursday February 3rd with Queen's, RMC and St Lawrence vying for the annual trophy and bragging rights.
